Subject: December Update
Attachments: Sacramento Dec 23.pdf

Hi,

Attached is the December contract update from Sicuro Data Analytics. If you have any questions, please do not hesitate to ask.

Happy Holidays-

Julie Salomonson
Administrative Assistant
SICURO DATA ANALYTICS

E: julie@sicuroanalytics.com
P: 818.437.1847

SICURO DATA ANALYTICS, LLC

Sacramento District Attorney

Regarding: A statistical analysis of criminal charging and outcomes, as outlined in the RJA

Start Date: Mar 23, 2023

Data Received: September 2023

December Contract Update

SDA is actively working on:

- Data Ingestion (*Contract Timeline 3-6 months*)
 - Analysts are currently converting database files into flat files and reconstructing the case management system.
 - SDA will then reshape the data to the case-defendant level and identify data gaps.
 - Analysts will continue conducting meetings with the SACDA IT department for clarification on data.
 - SDA will next determine that the data gathered is correct and prepare a data audit report that will outline key missing components. (**Anticipated delivery: March 2024**)

The next phase will be:

- Data Backfilling (*Contract Timeline 4-6 months*)
 - SDA will then work with the SACDA's office to identify additional internal databases that could contain the missing data as well as external locations where the missing data is maintained (e.g., court databases).
 - A plan for backfilling the missing content will be established.
 - SDA will complete the backfill/crawl and have a complete data set for analysis. (**Anticipated delivery: September 2024**)

If there are any unforeseen challenges that will delay deliverables, we will notify you immediately.

Okay, sounds good. Robert Pettis will be the person installing the software. I believe that you have his contact info, but I'm including him in this email just in case. He will have all of the information needed to install the software.

Best,
Greg

Yes, we can install Excel on the machine.

The machine should have Internet access, so you should be able to download it onto the machine. We'd just need to do a remote screen share for the actual install process.

I will get someone on our end to handle this. Let me know whom they should work with, and their contact info.

Thanks!

Hi Michael,

We'd like two pieces of software. The first is just Microsoft excel. I'm assuming that the office or county have a site license for this?

The second piece of software is Stata. If we can have the privileges to download and install this software, then our team can handle this.

Thanks

Greg

Hi Michael,

I hope you're doing well. Thank you for making the time to meet with Robert next week.

We're wondering if it is possible for software to be loaded onto the machine that you've placed the data on? Alternatively, we could place the data into an AWS instance where we have the software already loaded. Whatever is easiest for you.

Thanks

Greg

Sacramento District Attorney

Regarding: A statistical analysis of criminal charging and outcomes, as outlined in the RJA

Start Date: Mar 23, 2023

Data Received: September 2023

October Contract Update

SDA is actively working on:

- **Data Ingestion** (*Contract Timeline 3-6 months*)
 - Analysts are currently converting database files into flat files and reconstructing the case management system.
 - SDA will then reshape the data to the case-defendant level and identify data gaps.
 - Analysts will continue meetings with the SACDA IT department for clarification on data.
 - SDA will next determine that the data gathered is correct and prepare a data audit report that will outline key missing components. (*Anticipated deadline: March 2024*)

The next phase will be:

- **Data Backfilling** (*Contract Timeline 4-6 months*)
 - SDA will then work with the SACDA's office to identify additional internal databases that could contain the missing data as well as external locations where the missing data is maintained (e.g., court databases).
 - A plan for backfilling the missing content will be established.
 - SDA will complete the backfill/crawl and have a complete data set for analysis. (*Anticipated deadline: September 2024*)

If there are any unforeseen challenges that will delay deliverables, we will notify you immediately.

Subject: Re: SQL Copy

The databases that you have on the server we've given you access to (server name is Veri, I believe), are static copies of two production databases:

- DAEnterprise - our DA data
- IJIS_Subscription - county shared data

No one else is using this Veri machine except Sicuro. You should be able to run anything you want on it.

Hi Michael,

Our data analyst, Robert Pettis would like to come to the Sacramento office to get a better understanding of the data and the case management system. Is there a day during the week of October 23-27 that would work for you?

Thanks-

Julie Salomonson

Good morning,

You will be receiving an email with the heading "*Microsoft Invitations on behalf of Sacramento County District Attorney's Office*". If you have not received it within 4 hours, check your spam folder.

Once received, please read the email, then select "Accept invitation". The next page will prompt you to select "Send Notification" to validate a matching code. Once you have accepted the invitation, you will then be redirected to the Azure applications dashboard. You may close your browser at that point.

Before the end of business today, each of you will be receiving your account information and the instructions on how to login to VPN and connect to the "Veri" machine.

Thank you for your patience and let me know if you have any questions during this process.

Sacramento District Attorney

Regarding: A statistical analysis of criminal charging and outcomes, as outlined in the RJA

Start Date: Mar 23, 2023

Data Received: Pre-Data

September 23 Contract Update

A server is being built for SDA to access data.

Phase 1 (*will begin as soon as SDA has access to data*):

- Data Ingestion (*Contract Timeline 3-6 months*)
 - Convert database files into flat files and reconstruct the case management system.
 - Reshape the data to the case-defendant level and identify data gaps.
 - Continue meetings with the SACDA IT department for clarification on data.
 - SDA will next determine that the data gathered is correct and prepare a data audit report that will outline key missing components. (*Anticipated deadline: March 2024*)

The next phase will be:

- Data Backfilling (*Contract Timeline 4-6 months*)
 - SDA will then work with the SACDA's office to identify additional internal databases that could contain the missing data as well as external locations where the missing data is maintained (e.g., court databases).
 - A plan for backfilling the missing content will be established.
 - SDA will complete the backfill/crawl and have a complete data set for analysis. (*Anticipated deadline: September 2024*)

If there are any unforeseen challenges that will delay deliverables, we will notify you immediately.

Hi Michael,

This sounds good. Responses:

1) Generally speaking, it would be good to have the internet. We'll likely download some software onto the machine (e.g., R or Python) and then we'll need to install packages, which are downloaded from the internet.

2) After the initial data is placed on the machine, I suspect we will not need to import or export any additional data for quite a while. As for refreshes, this will most likely be determined from your end. I'd recommend quarterly, though.

I hope this helps.

Greg

Yes, DOJ is currently processing their cards as well. Marayah returned her cards on 7/21 and Jeff returned his cards the week before. Gregory DeAngelo's initial prints were rejected due to poor quality. I was advised that he could complete his reprinting via electronic Live Scan as he is located within California. I'm waiting for his results as well. I'll shoot you an email as my investigations/backgrounds team gives me updates.

I

Sacramento District Attorney

Regarding: A statistical analysis of criminal charging and outcomes, as outlined in the RJA

Start Date: Mar 23, 2023

Data Received: Pre-Data

August 23 Contract Update

On August 4th, we received notification that the necessary SDA data analysts cleared Live Scan. They are all scheduled to complete the Security Awareness Training/Test so we can promptly begin work.

Phase 1:

- **Data Ingestion** (*Contract Timeline 3-6 months*)
 - Convert database files into flat files and reconstruct the case management system.
 - Reshape the data to the case-defendant level and identify data gaps.
 - Continue meetings with the SACDA IT department for clarification on data.
 - SDA will next determine that the data gathered is correct and prepare a data audit report that will outline key missing components. (*Anticipated deadline: 2/1/24*)

The next phase will be:

- **Data Backfilling** (*Contract Timeline 4-6 months*)
 - SDA will then work with the SACDA's office to identify additional internal databases that could contain the missing data as well as external locations where the missing data is maintained (e.g., court databases).
 - A plan for backfilling the missing content will be established.
 - SDA will complete the backfill/crawl and have a complete data set for analysis. (*Anticipated deadline: 8/1/24*)

If there are any unforeseen challenges that will delay deliverables, we will notify you immediately.

Yes, DOJ is currently processing their cards as well. Marayah returned her cards on 7/21 and Jeff returned his cards the week before. Gregory DeAngelo's initial prints were rejected due to poor quality. I was advised that he could complete his reprinting via electronic Live Scan as he is located within

California. I'm waiting for his results as well. I'll shoot you an email as my investigations/backgrounds team gives me updates.

Subject: RE: Sicuro

Yes, DOJ is currently processing their cards as well. Marayah returned her cards on 7/21 and Jeff returned his cards the week before. Gregory DeAngelo's initial prints were rejected due to poor quality. I was advised that he could complete his reprinting via electronic Live Scan as he is located within California. I'm waiting for his results as well. I'll shoot you an email as my investigations/backgrounds team gives me updates.

Hi Rachel,

I wanted to check in and see if Robert Pettis has cleared his background check. I know both Jeff Borowitz and Maryah Garner sent their cards and you should have received them by now.

Thank you!

Thank you for the email, Rachel. We are not local to the Sacramento area. I am located in California and could easily get the live scan completed if you send over the form with the pre-filled LiveScan form. However, the other 3 individuals from Sicuro are not located in California. Is it possible for them to get a livescan performed in their states (Georgia, Oregon, and Washington)?

Thanks

Greg

Thank you for the email, Rachel. We are not local to the Sacramento area. I am located in California and could easily get the live scan completed if you send over the form with the pre-filled LiveScan form. However, the other 3 individuals from Sicuro are not located in California. Is it possible for them to get a livescan performed in their states (Georgia, Oregon, and Washington)?

Thanks

Greg

Subject: Re: DA's Office Contractor access- Sicuro Analytics

Thank you for the email, Rachel. We are not local to the Sacramento area. I am located in California and could easily get the live scan completed if you send over the form with the pre-filled LiveScan form. However, the other 3 individuals from Sicuro are not located in California. Is it possible for them to get a livescan performed in their states (Georgia, Oregon, and Washington)?

Thanks

Greg

Good morning, please use the link below to schedule a Live Scan appointment. You will need to take your completed Live Scan application with you to your appointment. Please forward a copy of both completed forms back to me. Once cleared, you will be sent a link to for CJIS security awareness training. Upon completion of the training and test you will be contacted to come in for a badge. Feel free to reach out with any questions.

Live Scan is now by appointment only, no walk-ins will be accepted.
Live Scan Online Appointment System
<<https://livescanscheduler.as.me/>>

What is the name of the employer or agency that is sending you for Live Scan or for Fingerprint Cards? Sacramento County District Attorney's Office

What method of payment will you be using? Billing number (provided by the agency)

Please note: This is for access to the DA's Office facilities only. You must acquire a Live Scan application with a unique ORI and billing number from each agency for which you are requesting access.

Hi Scott,

What you sent over is consistent with my knowledge. The most important clearances are mine and Pettis. The other two would be great to have in place, though.

Julie, can you please check with Jeff and Maryah and see if it is possible for them to get live scanned?

Thanks

Greg

Hi Greg,

Good seeing you last week. Thien asked me this morning if your folks have cleared background, such that Sicuro can start going through our data. So I checked in with our chief investigator. He said the following:

-Greg is done and cleared.

-Pettis' print cards are on the way to us. Once received, we will send them to DOJ and wait for processing.

-Borowitz and Garner haven't sent us anything yet. We do know that they received the blank print cards and instructions from us over a month ago on 6/14.

Is that information consistent with what you know? As for Borowitz and Garner, is there any way for them to do a Live Scan as opposed to a print card? That would help speed up the process.

Please let me know if I can do anything on our end.

Thank you,

Scott

SICURO

DATA ANALYTICS

Sacramento District Attorney

Regarding: A statistical analysis of criminal charging and outcomes, as outlined in the RJA

Start Date: Mar 23, 2023

Data Received: Pre-Data

Contract Update

As soon as we receive the full data set, SDA will begin:

- **Data Ingestion** (*Contract Timeline 3-6 months*)
 - Convert database files into flat files and reconstruct the case management system.
 - Reshape the data to the case-defendant level and identify data gaps.
 - Continue meetings with the SACDA IT department for clarification on data.
 - SDA will next determine that the data gathered is correct and prepare a data audit report that will outline key missing components.

The next phase will be:

- **Data Backfilling** (*Contract Timeline 4-6 months*)
 - SDA will then work with the SACDA's office to identify additional internal databases that could contain the missing data as well as external locations where the missing data is maintained (e.g., court databases).
 - A plan for backfilling the missing content will be established.
 - Sicuro will complete the backfill/crawl and have a complete data set for analysis.

If there are any unforeseen challenges that will delay deliverables, we will notify you immediately.

Hi Rachel,

The person who took my fingerprints was concerned about this as well. One thing I'd like to note is that you're the only office that I've worked with that does not provide me with a form to have my fingerprints done digitally. Is this not a possibility? I've been digitally livescanned about 50 times in the past two years and it has never presented an issue. Perhaps we can try this option instead?

Best,

Greg

On Wed, Jun 28, 2023 at 8:55 AM Montesinos. Rachel (DA) <montesinosr@sacda.org> wrote:

Hi Greg, DOJ just informed our office that the quality of the prints taken on 6/21/23 was insufficient for processing; unfortunately, this will mean that you will need to be re-printed. There will be no cost to you. I'll be sending new paperwork via FedEx today. I was provided with a tracking identifier that must be added to the fingerprint card. My instinct tells me that I should add this number on the card though I hesitate in case it makes the card unusable (as the box is labelled LEAVE BLANK). As a work around, I will be sending you two (2) sets of fingerprint cards for a total of four (4) cards; one set with the OATI number and the other left blank so that the number can be added by the Live Scan technician, if required. Please return both sets of fingerprint cards to me so that I may properly dispose of the unused cards per DOJ requirements. I apologize for the inconvenience.

Below is information from Live Scan:

Per CA DOJ: Greg DeAngelo needs to be re-fingerprinted. The quality of the prints taken on 6/21/23 was insufficient for them to process the request. It says he can go back and reprint for free.

He'll need this number (OATI): [REDACTED]

This applicant fingerprint submission was rejected for the following reason(s):
Fingerprint Quality Too Low To Be Used

To re-submit this transaction, please reference the ORIGINAL APPLICANT TRACKING IDENTIFIER (OATI) [REDACTED]. If a fingerprint card is used for the re-submission, this OATI number must be recorded in the class line area of the fingerprint card.

Thank you for the email, Rachel. We are not local to the Sacramento area. I am located in California and could easily get the live scan completed if you send over the form with the pre-filled LiveScan form. However, the other 3 individuals from Sicuro are not located in California. Is it possible for them to get a livescan performed in their states (Georgia, Oregon, and Washington)?

Thanks

Greg

Good morning Greg, I was able to confirm with our Live Scan coordinator that because you reside within the state you are able to complete an electronic Live Scan. I've attached a copy of the application and instructions. I've copied the information below regarding the quality of the prints from the card. The link to schedule Live Scan appointments is for in-county applicants only; please use the previous method used to make your appointment, if necessary. I apologize for my error in sending you the fingerprint cards vs the electronic application..

Subject: FW: Vendor Sicuro

Rachel, please read below and re-send a new FedEx envelope with form to Greg DeAngelo his prints were rejected.
We have to re-do the capturing of the prints.

He will need the OATI number [REDACTED]

This applicant fingerprint submission was rejected for the following reason(s):
Fingerprint Quality Too Low To Be Used
To re-submit this transaction, please reference the ORIGINAL APPLICANT TRACKING IDENTIFIER (OATI) [REDACTED]. If a fingerprint card is used for the re-submission, this OATI number must be recorded in the class line area of the fingerprint card.

Hi Rachel,

The person who took my fingerprints was concerned about this as well. One thing I'd like to note is that you're the only office that I've worked with that does not provide me with a form to have my fingerprints done digitally. Is this not a possibility? I've been digitally livescanned about 50 times in the past two years and it has never presented an issue. Perhaps we can try this option instead?

Best,
Greg

On Wed, Jun 28, 2023 at 8:55 AM Montesinos. Rachel (DA) <montesinosr@sacda.org> wrote:

Hi Greg, DOJ just informed our office that the quality of the prints taken on 6/21/23 was insufficient for processing; unfortunately, this will mean that you will need to be re-printed. There will be no cost to you. I'll be sending new paperwork via FedEx today. I was provided with a tracking identifier that must be added to the fingerprint card. My instinct tells me that I should add this number on the card though I hesitate in case it makes the card unusable (as the box is labelled LEAVE BLANK). As a work around, I will be sending you two (2) sets of fingerprint cards for a total of four (4) cards; one set with the OATI number and the other left blank so that the number can be added by the Live Scan technician, if required. Please return both sets of fingerprint cards to me so that I may properly dispose of the unused cards per DOJ requirements. I apologize for the inconvenience.

Below is information from Live Scan:

Per CA DOJ: Greg DeAngelo needs to be re-fingerprinted. The quality of the prints taken on 6/21/23 was insufficient for them to process the request. It says he can go back and reprint for free.

He'll need this number (OATI): [REDACTED]

This applicant fingerprint submission was rejected for the following reason(s):
Fingerprint Quality Too Low To Be Used
To re-submit this transaction, please reference the ORIGINAL APPLICANT TRACKING IDENTIFIER (OATI) [REDACTED]. If a fingerprint card is used for the re-submission, this OATI number must be recorded in the class line area of the fingerprint card.

Subject: RE: DA's Office Contractor access- Sicuro Analytics

Hi Greg, DOJ just informed our office that the quality of the prints taken on 6/21/23 was insufficient for processing; unfortunately, this will mean that you will need to be re-printed. There will be no cost to you. I'll be sending new paperwork via FedEx today. I was provided with a tracking identifier that must be added to the fingerprint card. My instinct tells me that I should add this number on the card though I hesitate in case it makes the card unusable (as the box is labelled LEAVE BLANK). As a work around, I will be sending you two (2) sets of fingerprint cards for a total of four (4) cards; one set with the OATI number and the other left blank so that the number can be added by the Live Scan technician, if required. Please return both sets of fingerprint cards to me so that I may properly dispose of the unused cards per DOJ requirements. I apologize for the inconvenience.

Below is information from Live Scan:

Per CA DOJ: Greg DeAngelo needs to be re-fingerprinted. The quality of the prints taken on 6/21/23 was insufficient for them to process the request. It says he can go back and reprint for free.

He'll need this number (OATI): [REDACTED]

This applicant fingerprint submission was rejected for the following reason(s):

Fingerprint Quality Too Low To Be Used

To re-submit this transaction, please reference the ORIGINAL APPLICANT

TRACKING IDENTIFIER (OATI) [REDACTED]. If a fingerprint card is used for the re-submission, this OATI number must be recorded in the class line area of the fingerprint card.

Hi Greg,

Sorry to bother you...someone from the DA sent you a revised Scurio contract to sign, can you tell me who sent you this revised contract? I am trying to track this signed contract down and having a hard time. Thank you for any information you have, I appreciate it!

Hello Heather,

Sorry I do not. Usually, any physical docs that come over for signature are picked up by the person who dropped them off?

Hi Noemi,
Do you happen to have this signed contract or know who has it?

Yeah, we finished that a couple weeks ago. It went through for Greg and Thien's signatures. I don't have the signed copy.

Hi Heather,

Can you provide the signed agreement?

Thank you.

Ger

Hi Ger,

This is my first email regarding the release, I wasn't aware that we need to email (I am now). 😊 Please let me know if you need anything else from me to process the 93 release. Much appreciated, have a great day!

Hi Heather,

Yes, I do process the 93 release. I am working on requests that our office received on May 31st. For some reason, I am not able to locate the email where you request the 93 release.

I am assuming the email went to a different inbox. Can you email the email showing when you submitted the request for the 93 release.

Thank you.

Hi Ger,

Do you release the WB contracts? I submitted WB00043949 and I am waiting on the 93 release, do you handle the 93 release? Thank you!
