My apologies. I think I provided the wrong draft of my response to the Motion to Compel. The correct version is attached here.

Hello,
Unfortunately I had to deal with this issue quite a bit already. I am attaching my response from the Vargas case (05-192292-1). I am also attaching the declarations we filed in that case. We were in front of Judge Burch for this one. He denied the request.

I received the same request from Ashe for the same charge- PC 209(b). I am formulating a response now and will also be using the data declaration again.

Let me know if you have any questions.

Chris

Subject: Racial Justice Act Request

Good morning all,

I just received the attached motion from Tony Ashe requesting disclosures under the Racial Justice Act. I spoke with Chris and Ryan, who told me we have responded to a few of these and that I should alert Venus. I've attached the defense motion, as well as the CDAA template response that Ryan gave me.

My case is currently set for trial on 3/8 with RC on 2/10. Please advise if there is a uniform response from our office that I should be using.

Thank you,
Max
