Mr. Wilner:

We received your correspondence of October 18, 2021, which responded to our earlier questions regarding your July 23, 2021 records request. We are collecting and reviewing the records that are potentially responsive to the request. Given the expansive timeframe of the request and the number of separate requests included in the request, we would like to work with you regarding a rolling release of the disclosable records. We have a number of pending large requests and the primary person who handled records requests for our office recently left our office. Given this information, we anticipate completing the request on or before January 31, 2022 and intend to provide the written response information and responsive, disclosable records on a rolling basis between now and that time. Please confirm that you are amenable to this handling.

Thank you for your continued patience.

Steven Bolen
Deputy District Attorney
Contra Costa County
