Subject: ARC Guidelines

David,

Here are the current ARC guidelines:

Felony narcotics cases that are 1170(h) eligible and do not contain any weight enhancements under Health and Safety Code section 11370.4, sentence enhancements, strike priors, or conduct enhancements.

Any of these factors will make the case ineligible for ARC:

- Any CDCR eligible charge.
- Sales of fentanyl or fentanyl-laced drugs.
- Non-narcotics felony charges (whether 1170(h) eligible or not).
- Child endangerment (misdemeanor or felony).
- Public safety concerns as determined by the assigned DDA.

HS 11379.6 is also excluded as a charge.

Regards,
Ed

Edward Liang
