Re: California Public Records Act Request

Mr. Spitzer,

Thank you for the production you sent on May 19, 2022. Our understanding is that this includes all responsive documents in the county's possession, less those to which you had asserted an exemption in your April 22, 2022 letter.

My understanding is that you had agreed to reconsider your position regarding the summary criminal information exemption if we would withdraw our request for each defendant's name. Please send an update on the status of that inquiry.

Very truly yours,

Kory DeClark
