Re: California Public Records Act Request

Mr. Murphy,

I'm following up on two separate PRA requests to your office.

Policy

As we have said in letters, emails, phone calls, and a fax over many months, we have not received a response to our PRA request dated July 23, 2021. Please provide the requested data immediately or contact our office to discuss the matter.

Data

On April 11, you sent a letter regarding our February 23, 2022 PRA request. In it, you gave a cost quote for data extraction. We followed up the next day, telling you that we need more information to determine whether the cost estimate is permitted by the CPRA. Please tell us which tasks are included in your 30-hour estimate and provide an hours estimate for each task. Without this information, we cannot assess the estimate.

Very truly yours,

Kory DeClark
