Thanks, Glenn and sorry for any confusion. I will confer with our client regarding the cost estimate.

For the data already produced, can you provide it in a native format (Excel or similar)? A disk is fine, but we can also receive it via Dropbox or another filesharing website.

***** EXTERNAL MESSAGE *****

Hi Joshua,

I discussed your July 22 letter with the District Attorney. As you may recall, the County provided a substantive response on April 22, and then provided the responsive documents with a May 16 cover letter. All three letters are attached for your reference. The County provided the responsive documents on a disc with a single PDF. The PDF was a 5080 page document showing information extracted from the District Attorney's case management system.

The District Attorney stated that he may be able to provide additional responsive information, but that the manager of the case management system (Karpel) would have to create a program to extract that data. Karpel quoted a cost of \$10,000 for the data extraction program. If the ACLU is interested in paying for this programming, please let me know. Otherwise, the District Attorney has no additional non-exempt information to provide.

~Glenn
