***** EXTERNAL MESSAGE *****

Mr. Wilner,

I think we are getting closer. We figured out the juvenile case problem and redaction. But, we came across another problem.... the data we ran seemed to be pulling some sealed cases. So, we have to do some searched to figure out if that is just a few anomolies or something of a larger problem.

Thanks for your patience and I plan to try to make sure to check back in with you before Thanksgiving. I am at a training the week prior but can still get some other work done.

Regards,

We were only able to run about 25% of the data searches to remove the juvenile data.

The other 75% will need manual redaction. We are in the process of figuring out how much redaction that may be and should have an update by the end of the week.

We were trying to finalize our response to you and our discs with records and just came across a problem.

It looks like our data pulled juvenile data (including the names of juveniles) and its mixed in with the adult data. This is a problem.

We need to see if this can be easily fixed by doing new searches and excluding the juvenile data or if we will have a more complicated fix, to hand redact a huge volume of records.

I am trying to meet with my team Friday or Monday and hopefully have a better understanding of how we can exclude the juvenile records.

I will reach out to you again early next week with an update.

Mr. Wilner,

Thanks for your patience. We had a series of people on our PRA team out with Covid, vacations, and difficulties trying to dig into our system to seem what we could actually pull out.

I am aiming to get you our reply and a bunch of documents by next week.

Mr. Wilner,

We are still attempting to see what data we can pull. Our case management system switched in October 2019 and finding what data we have or dont have from 2015 to 2019 has been difficult. We are still gathering the data from 2019 to the present.

We are hopeful to get a more complete response out to you by the end of next week, and also hopeful that we can pull much of the data/records and turn over to you at that point as well. In that response, we will respond separately to each category or requested items.

Regards,

James Clinchard

Ms. Broddrick and Mr. Clinchard,

Thank you for your response. Our office agrees to an extension to May 1, 2022. At that time, we ask that you respond in writing to each subcategory of our request. For each subcategory, please inform us if the data is 1. Not tracked by your office in any form, 2. Tracked by your office only in paper files or a format that requires manual review of each case file (for example, a picture of a paper case file), or 3. is tracked digitally. For the data in category 3, please inform us whether you will produce the data or whether you plan to without it based on a legal exemption. Please provide the specific legal exemption you use to justify nondisclosure.

Please let me know if you have any questions.

Regards,

Joshua Wilner
